How recipients are selected

Medtronic is committed to aiding as many students as we can. However, due to the large number of applications we receive, each year approximately 30% of the applicants receive scholarships.

Selection is based on:

- Academic record and honors
- Leadership and potential to succeed
- Participation in school and community activities
- Work experience
- Educational and career goals
- Letter of recommendation

Recipient selection and awards are granted by Scholarship America, without regard to race, color, creed, religion, sexual orientation, gender, disability, or national origin. Once recipients are selected, financial need is assessed to determine the award amount. If no financial information is submitted in the Financial Data section of the application, the student will receive the minimum award amount.

Medtronic will receive names of the recipients which may be announced in internal Medtronic publications.

Recipient responsibilities

If a scholarship is awarded, your child must enter school no later than the upcoming fall term. If they do not attend school on a full-time basis for the entire academic year, a portion of the total award will be adjusted.

Recipients are required to notify Scholarship America of any changes to school enrollment or other relevant information.
