

Lockheed Martin Vocational Scholarship Program Frequently Asked Questions (FAQs)

Selection and Eligibility

How do recipients get selected?

Scholarship applications will undergo an independent review by our partner, Scholarship America. Scholarship America is a nonprofit organization with more than 60 years of experience designing and managing scholarship programs. After ensuring applicants meet eligibility requirements, Scholarship America will evaluate applicants' merit in academics and personal experiences (such as work experience).

How does a student provide documentation of their eligibility status?

Applicants are asked questions to determine their eligibility on the application. When students submit their applications, they are required to provide an electronic signature certifying they meet the eligibility requirements of the program and that the information provided is complete and accurate. The award could be rescinded if the student provided any false information on their application.

Are international or non-U.S. citizen students attending U.S. universities eligible?

The Lockheed Martin Vocational Scholarship is open only to U.S. citizens.

Are family members of Lockheed Martin employees eligible to apply?

Family members of Lockheed Martin employees can apply for the Vocational Scholarship if they meet the eligibility requirements.

Does the student have to be enrolled in the school prior to the application?

No. As long as they are planning to enroll in classes by the Fall 2024 semester, they can apply.

What is the timeline for the selection/awards?

Applicants will receive notification of their award status via email from LMVocational@scholarshipamerica.org in May 2024. In August 2024, awards will be disbursed directly to the recipients in the form of a check made payable to the school.

Can someone who is planning to go back for a second two-year degree apply?

Yes, as long as they have not obtained a bachelor's degree.

Can someone who has previously received the Lockheed Martin Vocational Scholarship apply?

No.

Application Process

What will the student need to complete the application?

Students will complete an online application, provide a school transcript and information about work experience and other activities, and certify via signature that they meet the eligibility requirements. They will also need to provide contact information for one external reference who will then receive a request to complete an online application form.

Can parents, teachers, friends apply on behalf of the student?

No. Students must apply for the scholarship program on their own. Third parties cannot complete the application on behalf of a student.

Internships for Vocational Scholarship Recipients

Will recipients be considered for internship opportunities at Lockheed Martin?

Scholarship recipients should be open to outreach from Lockheed Martin recruitment teams regarding possible internship opportunities. Internships are not guaranteed and all interested candidates and scholars must apply through the Lockheed Martin [careers site](#) to be considered. Additional opportunity may be promoted to scholarship recipients at Lockheed Martin's discretion.

Change of Majors

If a student changes majors, do they lose their scholarship? Would they have to repay the portion that was already awarded to them?

If recipients change majors or become ineligible for any reason, they will not have to repay any portion of the scholarship that was already awarded to them.
